

Asbjorn Melo

ESC Consultant Since: 2017

Education:

MS, Mechanical Engineering, University of Wyoming

BS, Civil Engineering, South Dakota School of Mines and Technology

AREAS OF EXPERTISE: Organizational improvements, strategic planning, leadership coaching, personnel management, team effectiveness, organizational restructuring, business development and deployment, management of rapid growth, data analysis

PRIVATE SECTOR EXPERIENCE: Asbjorn has spent his career improving organizations through his technical expertise and knowledge. He served as Vice President of Services at PARTsolutions, where he consulted with large multi-national corporations on process improvements – including such companies as Boeing, Parker Hannifin, Siemens Energy and GE Oil and Gas. He also worked as Chief Executive Officer at Vermax Industries, where he successfully restructured the company, bringing it back to operating status after it went into bankruptcy protection under Chapter 11.

Previously, Asbjorn started and developed Wamware, a software and mechanical engineering consulting company. He grew the company to serve a nationwide customer base, eventually leading to its successful sale. Asbjorn also worked at the Structural Dynamics Research Corporation, where he managed the software quality assurance group.

VOLUNTEER EXPERIENCE: With his passion for motorcycle racing, Asbjorn traveled with a racing team throughout the US on their competition circuit, helping the riders with mechanical and technical issues and providing manual support.

INTERESTS: Biking, motorcycle riding and racing, travel
